

LOVYA BAJAJ

+61 455 456 329 | blovya@gmail.com | Perth, WA | Portfolio

Summary

Recent Bachelor of Information Technology graduate with a major in Cyber Security. Originally from Punjab, India, I moved to Australia three years ago and have developed strong adaptability in diverse environments. I thrive under pressure, excel at multitasking, and enjoy collaborating with others to solve complex problems creatively. I seek a role as an Information Technology Support Engineer that will challenge my skills, foster continuous learning, and offer growth opportunities. Passionate about cybersecurity and technology, I am eager to contribute my knowledge, enthusiasm, and dedication to a forward-thinking organisation that values innovation, teamwork, and excellence.

Experience

Pepnet Technologies | Perth, WA

Customer Contact Officer | 01/2025 - Present

Received a contract from the same company to work on a project where we worked in a team of six members and deployed 200+ phone systems across multiple Juniper sites.

- Maintained records (IP addresses, phone numbers) using spreadsheets
- Configured networks as required

PepNet Technologies (Managed Service Provider) | Perth, WA

IT Service Desk Intern | 07/2024 - 12/2024

- Managed Active Directory accounts, group policies, and access controls, streamlining user authentication and enhancing security.
- Configured Voice over IP Telephones, powered by RingCentral, and solved issues with IP phones on sites.
- Administered Microsoft 365, SharePoint, Azure, VPNs, and multi-factor authentication systems, improving organisational security and reducing unauthorised access.
- Provided IT support for customers via calls.
- Resolved IT tickets efficiently using Zendesk, ensuring minimal user disruption and meeting SLA targets.
- Provided support for desktops, laptops, phone systems, and network infrastructure.
- Set up and configured LAN/WAN networks, including IP addressing and subnetting.
- Designed and maintained server backups, updates and monitoring for high system availability.
- Provided tech support (ITIL) for 100+ customer companies in the IT department.
- Installed and configured landline phones across multiple sites.
- Provided technical support for phone installations and network connectivity.
